# National Interagency Coordination Center Incident Management Situation Report Tuesday, August 27, 2019 - 0530 MT National Preparedness Level 2 

National Fire Activity
Initial attack activity:
Light (77 new fires)
New large incidents:
Large fires contained:
4
Uncontained large fires:***
7
Area Command teams committed:14

NIMOs committed:
Type 1 IMTs committed: ,

Type 2 IMTs committed: 3

Nationally, there are 35 large fires being managed under a strategy other than full suppression. *** Uncontained large fires include only fires being managed under a full suppression strategy. Link to Geographic Area daily reports.

Link to Understanding the IMSR.

## Alaska Area (PL 3)

| New fires: | 6 |
| :--- | :--- |
| New large incidents: | 1 |
| Uncontained large fires: | 3 |
| Type 1 IMTs committed: | 1 |
| Type 2 IMTs committed: | 2 |

Swan Lake, Kenai Kodiak Area, Alaska DOF. IMT 1 (GB Team 1). IMT is also managing the Caribou Lake incident. Started on FWS land five miles northeast of Sterling, AK. Timber, brush and short grass. Active fire behavior with short crown runs, group torching and running. The communities of Sterling and Cooper Landing and numerous structures threatened. Area, road and trail closures in effect.

Caribou Lake, Kenai-Kodiak Area, Alaska DOF. Seven miles northwest of Fox River, AK. Heavy logging slash, timber and tall grass. Minimal fire behavior with creeping and single tree torching. Structures threatened.

McKinley, Mat-Su Area, Alaska DOF. IMT 2 (AK Green Team). Started on private land 18 miles north of Willow, AK. Timber and brush. Moderate fire behavior with backing, creeping and single tree torching. Numerous residences threatened. Reduction in acreage due to more accurate mapping.

Deshka Landing, Mat-Su Area, Alaska DOF. IMT 2 (NW Team 10). Seven miles southwest of Willow, AK. Timber, brush and short grass. Minimal fire behavior with creeping and smoldering. Area, road and trail closures in effect. Reduction in acreage due to more accurate mapping.

* Ethel Creek, Southwest Area, Alaska DOF. Fifty-three miles northeast of Nondalton, AK. Timber and tall grass. Moderate fire behavior with creeping. Last narrative report unless significant activity occurs.

Predictive Services Discussion: The Four Corners High will begin to drift east a bit from California toward its usual location over the Four Corners. This will allow for a better yet weak surge of monsoonal moisture to flow into New Mexico and Arizona. Hot and dry conditions will continue across California, Oregon, Nevada and Arizona beneath a thermal trough. A cooler, breezy northwesterly flow will be in place across the Northern Rockies and the northern Great Plains, as a weak front passes. Isolated storms will be possible across the Dakotas in the afternoon. A stalled frontal boundary will continue to bring showers and storms to the Deep South and the Red River Region of Texas and Oklahoma.

# Terrain And Fuels Make Escape Difficult <br> Operational Engagement Category 

When fighting wildland fires, it is often easy to get committed to areas that put you in Watchout Situation \#17. As firefighters progress along the fireline, it is imperative to constantly keep the following considerations in mind:

- Retreat times should be based on the slowest member of the crew.
- Does the crew's condition allow for fast travel?
- Discuss physical and mental conditions that could interfere with a crew's ability to travel quickly.
- Will you get adequate warning to make it to your safety zone? Who will you rely on to warn you? How will you ensure that everyone gets the word?
- Can escape routes be improved to make travel to safety zones faster? Are escape routes marked?
- Review what you have done on past fires to locate, mark, and improve escape routes.
- Will posting more lookouts give adequate warning? Talk about situations where there was more than one firefighter assigned to be lookout.
- To reduce the risks:
- Consider other tactics that will allow you to be in a safer location. Review fires where you have had to change tactics because escape to safety zones was not adequate.
